

# Our Company.....

## And what we do

### The Company

Good Life Spas was established in 2008 after Andy Coulton, a U.K. national with property in the Algarve, had been looking for a quality Hot Tub for his own personal use and whilst there were quite a few companies selling them, there were no real specialist and knowledgeable suppliers.

Andy conducted some extensive research into the Algarve Hot Tub market it became apparent that there was a gap for a dedicated, professional hot tub sales and service company and so Good Life Spas was born.

### Hot Tub Spas

The company was appointed as the main distributor in Portugal for Artesian Spas a premium quality, U.S. manufacturer of Hot Tub Spas and who are regarded by many in the industry as the leading innovator of new and exclusive features in Hot Tub technology, which are patented and available exclusively on their spas.

Allied to this, all the company's employees are trained in Hot Tub Spa Water Care techniques to BISHTA standards (The British and Irish Spa and Hot Tub Association) to ensure you get the best advice on keeping your tub safe, clean and enjoyable.

So, not only do they supply the best Spas available in Portugal they can also provide qualified service, repair and maintenance for all makes of Hot Tub, Jacuzzi and Spa.

..... ***And there's more.***

### Saunas

In response to customer requests Good Life Spas have broadened their range to include saunas from leading Worldwide manufacturers, covering all types of therapy;

### Sunlighten
