

# A Brief Overview.....

## of our spa ranges

### Common Features on All Artesian Spas

Manufactured for over 30 years by one of the U.S.A.'s leading hot tub manufacturers, Artesian Spas are constructed with quality and care as basic fundamentals. Starting with a fully pressure treated timber frame and Lucite Acrylic Shell and equipped with market leading Jets, Pumps and the ultra reliable Balboa Electronic Management Systems that automatically controls the heating and water filtration. The spa cabinets are made from Kingwood, a composite panelling that does not rot, warp or split and requires minimal maintenance. A top quality Thermal Cover is included as standard and is available in a range of colours to complement the cabinet.

### Garden Spas

Our entry level product, designed for smaller spaces and lower budgets. Small on size, but big on performance, yet can be operated with just a 13 amp electrical supply.

**Options available include;** Ozone Sanitation System, Foam Insulation and colour changing LED light.

### South Seas Spas

Comparable with most spas available locally, a wide range of sizes, shapes and options and equipped with up to 3 powerful hydrotherapy pumps.

**Options available include;** Ozone Sanitation System, PillowFalls, Neck Jets, Foam Insulation, Choice of 20 interior Shell and 6 exterior Cabinet Colours, built-in stereo sound systems.

### Artesian Island Spas

A market leading spa with up to 4 powerful hydrotherapy pumps - and for enhanced water clarity a low energy 24/7 circulation pump and micro filtration. Island Spas are also equipped with Artesian's patented Thera-Helix Jets that give a true rotary massage effect, for the ultimate in hydrotherapy benefit. Full foam insulation comes as standard along with a choice of 17 interior shell colours and enhanced chromo therapy with multiple, colour changing LED lights.

**Options available include;** Pulsating Wave Motion, Crystal AOP - the Ozone/U.V. hybrid Sanitation System, Worldwide WiFi control, Rock Effect Cabinets and various Stereo Systems.

### Artesian Platinum Elite Spas

Quite simply the best spas money can buy, 5 powerful hydrotherapy pumps that can be individually controlled from inside the spa, to give personal control for massage intensity and saves energy, combined with Artesian's patented Thera-Helix Jets for the ultimate in hydrotherapy benefit. Aqua Serene water feature and Pillow Falls, 24/7 circulation pump with triple filtration and with Crystal AOP system that combines the power of Ozone with U.V., SmartTherm Titanium Heater, colour changing LED underwater, pillow and cabinet lights for superb chromo therapy benefit and Full Foam insulation to reduce running costs.

**Options available include;** Rock Effect Cabinets, WiFi control of your spa from anywhere in the world, various Stereo Systems, including the unbeatable Harman Premium Infinity sound system.
